

Cristal PVC

Designed by **Gibus**

"Six generations of industry experience"

Overlap-free PVC weld

Virtually invisible seam does not require overlap

13.QU Straight Drop Awning

Maintain views of outside while protecting from wind and rain

FEATURES & BENEFITS

- Newly developed welding method which is virtually invisible.
- The new weld negates the need for the "standard" 25mm overlap and/or stitched seams.
- The fabric retracts more smoothly on the roller and does not become stretched or damaged as there is no double thickness.
- The fabric is pre-stabilised using infrared, prior to welding. Improved fabric stability helps fabric to remain flat, reducing rippling and undulations.
- Unique tensioned side zip guide (11.QU or 13.QU straight drop awning) eliminates fabric blow-out and provides superior protection against wind and rain.
- 2 year warranty on Cristal PVC*

**Conditions apply. See Vanguard/Gibus warranty for full details.*

SPECIFICATIONS

	11.QU	13.QU
Min Width	1,500mm	1,500mm
Max Width	3,500mm	4,500mm
Min Drop	1,500mm	1,500mm
Max Drop	2,500mm	3,000mm
