

The stunning timber look that never needs painting!

DecoWood™ provides a durable alternative to timber that can be used in louvres and shutters. It boasts the low maintenance and high durability qualities of aluminium, in addition to the natural beauty and warm textured feel of timber.

DecoWood™ is a durable marine grade powder coating with a ten year warranty. It is also suitable for bush fire designated locations where timber is not permitted. Unlike timber DecoWood™ aluminium is long lasting and dimensionally stable, meaning it will never warp, split or crack.

- No logging of trees
- No solvents
- Recyclable material
- Recycle offcuts
- Durable - long life
- Australian made
- No PVC
- 10 year warranty
