KISS PIVOT Hand Operated Louvres

Vanguard

KISS PIVOT - SIMPLE OPERATION FOR EVERYDAY COMFORT.

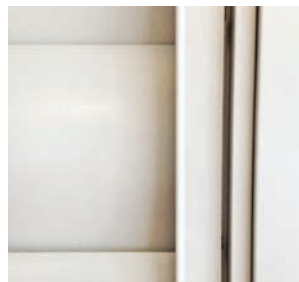

The Kiss Pivot System is a simple hand operated pivot system which can be installed in stand alone situations or can be combined into sliding, fixed or bi-fold shutter systems or fixed wall mounted frames. The system is comprised of a unique handle which is fixed to the end caps of the louvres allowing them to pivot 180° smoothly, to provide sun & weather protection, ventilation or privacy.

Drive arms attach to the end caps & are located on either side.

Wool pile closing strip eliminates aluminium contact & ensures soft closure.

Drive arms sit flush with frame to avoid light gaps & cover end caps.

“Six generations of industry experience”

FEATURES & BENEFITS

- Choose from 70mm Mini, 90mm Mini or 150mm Midi louvre blades.
 - Designed to operate within sliding, hinged or bi-fold shutter configurations (*Utilises Vanguard Shutterguard frame*) or fixed mounted frames.
 - Operates via 2 drive arms attached to both side of the blades - allows the blades to be smoothly moved through a 180° motion.
 - Wool pile closing strip on each blade - eliminates aluminium contact & ensures soft closure.
 - Optional internal operating Slidelock secures the panel when fully closed & offers 5 other fixed locking positions.
 - When drive arms are fully closed they sit flush with the frame & cover the ends of the individual louvres - eliminates any light gaps & gives added wind & weather protection.
 - Simple operation, innovative design & choice of 3 louvre styles makes the system a flexible choice.
 - Extruded aluminium frames - superior strength, durability & clean edges (unable to be achieved with folded or roll formed steel & Colourbond products)
 - Custom designed to suit requirements - fixed frames allow for larger areas to be covered.
 - End caps are manufactured from UV treated plastic & available in white, grey or black.
 - Adjust the louvres easily by hand to provide privacy, allow full or partial sunlight, release heat, capture cool breezes, or close for full protection.
 - Wide range of powder coat & anodised finishes available – durable with superior colour retention.
 - 5 year warranty*
- *Conditions apply see Vanguard /Louvretec warranty for full details.
