MED TWIST Opening Roof / Room

Vanguard

“Six generations of industry experience”

FEATURES & BENEFITS

- Med Twist offers a complete outdoor room solution if desired - including outdoor blinds, glass doors, lighting & heating.
- Freestanding or wall fixed configurations available.
- Motorised (240v tubular motor) + remote control.
- Blades able to rotate through 135° motion.
- Unique design allows the blades to remain in contact with the frame throughout the entire motion - this eliminates any gaps or water leaks (also allows the room to be enclosed with glass doors or PVC blinds and air conditioned if desired)
- Down pipes incorporated into posts.
- Extruded aluminium frame, blades & gutters - superior strength, durability & clean edges (unable to be achieved with folded or roll formed steel & Colorbond products)
- Adjust the louvres to any position within the 135° range to allow full or partial sunlight, release heat, capture cool breezes, or close for full protection.
- Choose from 5 stylish powder coat colours - durable with superior colour retention.
- 5 year warranty*

*Conditions apply see Vanguard /Gibus warranty for full details.

Height	2,400mm	2,400mm

LIFESTYLE SOLUTIONS

Create a complete outdoor solution by combining your Med Twist with a complimenting product.

Add: Wind & Sun Protection + Privacy

Recommended products:

- 13.QU - straight drop awnings / outdoor blinds.
- Glisse - sliding glass doors.
- Lighting - RGB strip or perimeter/blade down lights.
- Electric heaters.
- Rain sensor.

MED TWIST - THE COMPLETE OUTDOOR ROOM SOLUTION.

Introducing The Med Twist - the 1st bioclimatic pergola designed by Gibus.

The Med Twist boasts numerous technical innovations including a unique 135° twist motion, which allows the individual louvre blades to remain in contact with the frame throughout the entire motion. This eliminates any light gaps, unsightly gutters or water leaks. In addition the down pipes are integrated into the frame posts allowing water to drain off the blades, into the gutter and out through the posts.

The Med Twist is available with a range of optional extras including sliding glass doors, outdoor blinds and three unique configurations of LED lighting. Internal blade insulation can also be added to reduce the sound of rain on the roof by up to 70%.

Unique patented twist motion - operates from 0° through to 135°.

Louvre blades always in contact with the frame - waterproof & airtight.

Flat underside when closed with no visible gutter.
