

Designed by Vanguard

**SHUTTERGUARD** Aluminium Shutters

  
Vanguard

“Six generations of industry experience”

## FEATURES & BENEFITS

- 100mm Airfoil louvre blades with aluminium end caps - capable of running horizontally or vertically within frame.
- Track system engineered with stainless steel & acyl carriers for smooth operation.
- Friction slide mechanism - allows the shutter panels to have resistance during windy conditions.
- Top & bottom tracks butt neatly together to eliminate unsightly gaps between panels.
- Fully welded & extruded aluminium frames - superior strength, durability & clean edges (unable to be achieved with folded or roll formed steel & Colourbond products)
- Adjust the louvres to provide privacy, allow full or partial sunlight, release heat, capture cool breezes, or close for full protection.
- Bi-fold shutters are hinged double panels - each set has a flushbolt which can be engaged to lock the panels & slide or disengaged, allowing them to fold & be stacked at either end of the track.
- Shutterguard frame is available with selected Louvretac blades if desired (70mm Mini, 90mm Mini or 95mm Bella Vista) - these come with plastic end caps, not powder coated aluminium end caps.
- Wide range of powder coat & anodised finishes available - durable with superior colour retention.
- 5 year warranty\*

\*Conditions apply see Vanguard warranty for full details.

## SHUTTERGUARD - UNCOMPROMISED FLEXIBILITY & STYLE.

Shutterguard is a superior quality shutter system designed and manufactured by Vanguard in Australia. The system is best suited to exterior applications, including decks, patios, balconies and outdoor living areas. A unique feature is the frame construction which is manufactured from extruded aluminium and fully welded for superior strength and durability.

The Shutterguard system is available in fixed, sliding or bi-fold configurations. For added height and strength a mid rail can be added which allows the blades above and below to operate independently giving greater flexibility and control over sunlight, privacy and ventilation.

Hand operated with aluminium powder coat end caps to match.

Flushbolt allows bi-folding panels to be engaged & disengaged.

Shutterguard tracks butt neatly together to eliminate gaps.
